**Subject:** More West Lake FOIAing  
EPA-R7-2014-010463 .pdf

EPA-R7-2014-010463 is new. Asks for: documents from Republic Services and its subcontractors (including but not limited to Engineering Management Support Inc.) that detail the proposed isolation barriers Alignment 1, Alignment 2, and Alignment 3 used by the Army Corps of Engineers for its review of the isolation barrier alternatives document dated August 25, 2014.

The USACE document referenced can be found here:

[http://www.epa.gov/region7/cleanup/west\\_lake\\_landfill/pdf/west-lake-isolation-barrier-assessment.pdf](http://www.epa.gov/region7/cleanup/west_lake_landfill/pdf/west-lake-isolation-barrier-assessment.pdf)

The 10463 fee waiver request has been sent to HQ for a determination. The 10353 fee waiver was denied.

Thanks,

**Subject:** West Lake: Ed's latest FOIA for airport-related documents

As to FOIA 010340, I don't think there is a large number of these documents in our possession, and I think many of them are already available to the public as part of the ROD responsiveness summary, SFS, etc. However, the document search time necessary to confirm this over the requested time period will be large and will involve CNSL, SUPR, OPA and possibly other divisions. I'm sure Ed has asked for a fee waiver, and I'm not going to worry about it until that issue has been resolved.

**Subject:** RE: West Lake FOIA for United States Geological Survey groundwater report

Ed told me that he intends to send that request every month until we've got the report.

He also just submitted EPA-R7-2014-010340 asking for:

“All documents (not emails) between the St. Louis Airport Authority, City of St. Louis, St. Louis Lambert Airport, and the Federal Aviation Administration sent to EPA Region 7 and documents (not emails) from EPA Region 7 to the listed entities between 1/1/2008 through 9/12/2014.”

How time intensive will that one be?

**Subject:** RE: West Lake FOIA for United States Geological Survey groundwater report

This one (EPA-R7-2014-010320) is easy. We do not yet have the groundwater report USGS is preparing for EPA on the West Lake site, because USGS has not finished writing it. Ed should know this.

As this is the only document Ed requested, we have no responsive documents.
